Live Chat Assistance	✓	✗ Inhouse needs to Google and look for answers
Force Secure Passwords	✓	✗ Typically there is a lack of password security
Two-Factor Authentication	✓	✗ Available but most teams don't install
Database Protection	✓	✗ Little protection from SQL injection attacks
IP Address And Host Banning	✓	✗ Rarely ban hacker's ip address
Secured Credential Practices	✓	✗ Most do not follow the latest practices
WordPress Core Inspection	✓	✗ Rarely seen inhouse
Expert Image Optimization	✓	✗ Rarely seen inhouse
LazyLoad Flexible Script	✓	✗ Rarely seen inhouse
Cache Management	✓	✗ Rarely seen inhouse
Css & JS Minification	✓	✗ Rarely seen inhouse
Scheduled Optimizations	✓	✗ Rarely seen inhouse
Network Brute Force Prevention	✓	✗ Rarely seen inhouse
Defer JS Loading	✓	✗ Rarely seen inhouse
File Change Detection and Log	✓	✗ Rarely seen inhouse
Network Brute Force Prevention	✓	✗ Rarely seen inhouse
WordPress Ecosystem Support	✓	✗ Typically not contacting theme creators directly
Theme Maintenance	✓	✗ Typically not equipped to make Theme updates
Website Migration	✓	✗ May not find the best hosting provider
Secures Site From Known Leaks	✓	✗ Inhouse is rarely able to provide protection due to the ever-changing technology and malicious scripts

WordPromise™

The Ultimate WordPress Website Audit And
Maintenance Service For Website Owners
And Agencies

Invincible Security

Licensed plugin like iThemes Security Pro and Securi keep your WordPress website safe from risks and vulnerabilities through firewall, scanners, brute force protection, user activities & more.

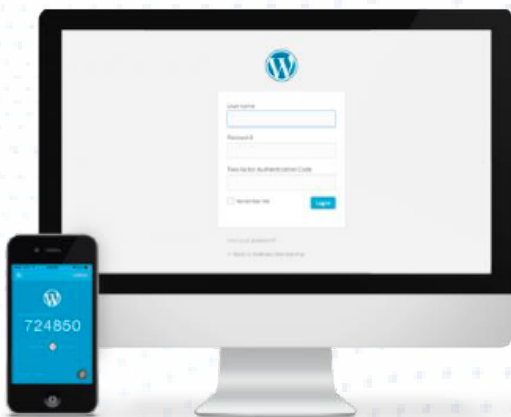

Speed Optimization

Plugins like Autoptimize, WP Rocket, Hummingbird Pro and WP Smush Pro will help optimize images, JS, CSS, browser caching, and CDN support and thus make your website load unbelievably fast and smooth.

Real Time Monitoring

Your website logs will be checked daily for changes, login security, etc. and actions are taken immediately if the website is down, or any vulnerability is noticed.

Content Fixes

Content fixes and troubleshooting needed on your WordPress website, such as CSS adjustments, will be helped within a 24-hour response time.

Backup Management

Backups are made daily on our secure cloud servers and will be made readily available for easy access and restoration if needed.

Updates & Reports

We run weekly tests to keep your website secure, fast, and optimized, plus provide detailed monthly reports to your email.

Customer Support

Our expert WordPress Technical staff will handle all your questions or issues in a professional and timely manner.
